CHARITABLE TRUST

Improving health outcomes in our communities

HOW YOUR SUPPORT CAN CHANGE LIVES

“The surgery has lifted a heavy burden for the entire whānau – a life-changing koha.”

100% owned by Braemar Charitable Trust

Braemar Charitable Trust is the 100% owner of Braemar Hospital, one of New Zealand's largest private hospitals.

The Trust's vision is to advance healthcare equity and access through the ownership of the hospital, facilitating free community surgeries and other health interventions, collaborating for better health outcomes, growing the medical workforce and their knowledge and skills, and contributing to medical research.

Hospital ownership

- ✚ The Trust fully owns Braemar Hospital which is a major pillar in its strategy for improving health outcomes.
- ✚ A portion of all Hospital fees are paid to the Trust via dividends so the Trust can undertake its charitable activities.

Community Surgery Programme

- ✚ Free surgery/procedures for those who meet the criteria, have no insurance or ACC funding, nor the financial means to pay, and have been declined or have little chance of having their procedure in the public system in a timely manner.
- ✚ Enabled through the generous support of credentialed specialists at Braemar Hospital who donate their time. Braemar Hospital supplies consumables at cost, Braemar Charitable Trust covers other costs.
- ✚ GPs, front-line partner organisations or credentialed specialists at Braemar Hospital make the referrals.

Partnerships

- ✚ The Trust collaborates with healthcare and community providers to enable improved health outcomes in communities where there is unmet and unseen need.

Contributing to medical research

- ✚ Helping fund research that enhances medical knowledge and supports the Trust's vision for better health outcomes.

Building capability in health

- ✚ Scholarships for tertiary study in health.
- ✚ Health sector leadership development.

YOUR SUPPORT CHANGES LIVES

All donations to Braemar Charitable Trust make a difference, whether they are from patients, individual donors, groups, charitable organisations or trusts.

Donors can choose to support free surgeries, scholarships, medical research or make a general donation so we can direct the funds where they are most needed.

Our online donation platform allows donors to make gifts, and provides options of support in the community surgery programme.

You can also choose to support scholarships, medical research and more. All donations are tax deductible and we receipt every donation. All donors will receive updates from the Trust during the year showing the impact of your giving.
